The Listening Program **LIVE VIDEO LINK** Professional Training Course

Unable to travel?

Find pre-recorded web based training boring & tedious?

Enjoy interactive learning?

Then this is the Course for You!

Its in real time, you can ask questions, interact with other trainees – it will feel like you are in a room together!

THE LISTENING PROGRAM[®]

This is a comprehensive course for professionals in the application of The Listening Program[®], including lecture, discussion, independent study and interactive learning. You will acquire the knowledge you need to begin working with this exciting practice for improving brain performance. Upon successful completion of this course, learners are authorized to offer TLP iPod programs, the Waves[®] multi-sensory audio system, and more.

NEXT 2017 LIVE VIDEO LINK DATES

11th & 12th August 2017 9am to 3.30pm EST

\$395 (\$349 early bird)

\$299 Provider Discount or Groups of 3 or more (paid 30 days prior)

**Learning
Objectives**

and

Outcomes:

- Define and describe the fundamentals that contribute to TLP methodology.
- Identify and relate the functional mechanisms of the ear, brain, and nervous system anatomy to TLP principles.
- Apply experience from the hands-on demonstration in the application of all TLP programs. Explain the comprehensive and proprietary TLP music production processes and program development.
- Define and demonstrate an understanding of TLP terminology.
- Infer knowledge from case study practicum to personalize TLP protocols for use with diverse applications.
- Describe and give examples of online intake, monitoring, and assessment tools. Incorporate all TLP programs in home, school, and clinical settings.

Completion Requirements:

Complete all presentation modules.

Receive a passing score of 80% or higher multiple choice exam.

After a learner has satisfactorily completed the course, they may use the designation “TLP Certified Provider” or “Certified Provider of The Listening Program”

Level One

The most widely used series in The Listening Program® LEVEL ONE is flexible; offering a foundational to experienced level program for improving brain function and mental abilities at any age.

To accommodate individual listener preferences, LEVEL ONE is available in two options: music only, or blended with beautiful sounds of nature. While many prefer to enjoy and focus on the engaging music, others, especially children, will benefit from the added novelty of listening to music and nature sounds together.

Featuring an extensive library of High Definition music recordings performed by the award-winning Arcangelos Chamber Ensemble, LEVEL ONE is offered in Spatial Surround® sound providing a wide variety of listening with a rich tapestry of sound featuring compositions by Mozart, Haydn, Vivaldi, and Danzi.

Level One is arranged in four progressive frequency zones, stimulating different brain areas and their related functions during the course of your personalized listening schedule. The training emphasis is well balanced across the zones making LEVEL ONE adaptable for people of all ages, supporting social & emotional function, auditory processing, communication, executive function, creative expression, motor coordination, stress response, self-awareness, musicality, and more.

Spectrum

Sound is everywhere, it's as much a part of our lives as the air we breathe and the food we eat.

Yet many of us become stressed or uncomfortable with sounds in our own home, school, work, and public places, and aren't even aware of it. Negative sound exposure has a scientifically proven impact on health, sleep, attention, learning, communication, listening and more.

There is an easy and effective solution...

The Listening Program® SPECTRUM is a foundational program created for children and adults with sensory sensitivities in need of a therapeutic intervention, and those listening for wellness. SPECTRUM creates a healthy relationship with sound by training the brain with pleasing evidence-based music which can improve brain processing of sound, reduce sensory sensitivities, and help people find comfort and safety in their environment. Featuring an extensive library of High Definition music recordings performed by the award-winning Arcangelos Chamber Ensemble, SPECTRUM is offered in Spatial Surround® sound providing a wide variety of listening with a rich tapestry of sound featuring compositions by Mozart, Haydn, Vivaldi, and Danzi.

Spectrum is arranged in four progressive frequency zones, stimulating different brain areas and their related functions during the course of your personalized listening schedule. The training emphasis is in the lower frequency music of the green zone supporting social & emotional functions, motor coordination, stress response, sensory processing, and more

Achieve

Success is within our reach. It's in our nature to develop ourselves and accomplish what we set our minds to do.

Those who attain their goals, and fully realize their potential: develop their ability to focus, listen, learn, communicate, plan, organize, and manage time, all while increasing their skills, imagination, creativity, motivation and persistence.

There is a practical and effective tool for success...The Listening Program® Achieve is an intermediate to experienced level program developed for older children, teens, and adults seeking changes in learning, communication, and peak performance. Achieve increases mental performance by training the brain with motivating evidence based music which

provides a "work enhancing" effect to help people achieve in areas of their life where performance matters most— family, school, career, and personal endeavours.

Achieve is arranged in four progressive frequency zones, stimulating different brain areas and their related functions during the course of your personalized listening schedule. The training emphasis is in the middle to higher frequency music of the orange and red zones supporting auditory processing, communication, executive function, creative expression, personal development, increased energy, motivation, musicality, consciousness, and more.

Waves

Get the most from your listening with Waves™, the multi-sensory audio system optimized for The Listening Program.

Waves enhances the delivery of Spectrum, Level One, Achieve and inTime by using the two natural modes of hearing—through your ears (air conduction) and through your head (bone conduction)— offering a deeper, more immersive listening experience than conventional headphones can provide. Not only does the Waves system make your daily listening more enjoyable, it accelerates and expands the benefits of your listening practice. It has been custom designed especially for The Listening Program®.

Following completion trainees may be eligible to join private mentoring provider group with Tracey Butler. Enquire today 07 3899 9782 as limited places are available.

Cancellation Policy

Certification Course Start-up and 2 Day Intensive

Cancellations must be made in writing. Pre-paid registration, refundable less \$100.00. No refunds will be made less than two weeks prior to a selected training course. Links To Learning reserves the right to cancel any training course with due cause and a full refund will be made on any paid registration, or the opportunity to complete training as web based option.

Transfer Policy

Transfer requests will be considered if received in writing no later than four weeks prior to the registered event. If the transfer request is granted, the registrant must pay the \$75 transfer fee plus the difference between the event costs, if any. In addition, the event transfer must occur within the same calendar year as the original registered event. Multiple transfers are not allowed.

Minimum Course Pre-requisites

By registering for a training course, you agree and certify that you meet the pre-requisites of being a qualified professional with a minimum of a Bachelor's or Master's Degree in a health, therapeutic, education or music field. You understand that if you do not meet the minimum requirements that ABT has outlined, ABT has the right to revoke your certification and a refund will not apply.
