**inTime Professional Training** This is a comprehensive advanced level course for professionals to become qualified in the application of **inTime**, the new and revolutionary rhythm-based music listening method from the creators of The Listening Program!

**inTime Registration**  
**\$225 Provider**  
**\$355 Non Provider**

**inTime** professional training includes lecture, demonstration, group discussion, and hands on practical experience. Acquire the knowledge needed to begin implementing this exciting system for influencing brain performance. Upon successful completion of the course, learners are authorised to offer **inTime** in their practice.

The **inTime** training is open to professionals trained as providers of The Listening Program, or other sound/music-based interventions. Requests for exceptions to this criterion are considered on an individual basis.

Learning Objectives and Outcomes:

- Identify and relate the acoustic, musical, cultural, developmental, physiological, psychological and neuroscientific aspects of the **inTime** rationale.
- Describe **inTime** as a rhythm-based music listening method comprised of:
  - Receptive experiences emphasizing the mutual influence of rhythm and sound frequency stimulation.

- Drumming, movement and vocal activities.
- Cite research supporting the use of rhythm within inTime.
- Demonstrate foundational competence in program planning, including personalizing listening protocols and incorporating activity options, using equipment, instruments, and other materials.
- Explain how to implement the inTime listening and activity protocols with a client.
- Incorporate the inTime method in home, school, and clinical settings.

Completion Requirements:

- Attend course.
- Receive a passing score of 80% or higher on multiple choice exam.

After learners have satisfactorily completed the course, they may use the designation “inTime Authorised Provider” or “Authorised Provider of inTime.”

Help your clients improve their brain performance with a rhythm-based music listening method designed to stimulate change in self-regulation, sensory-motor function, and interaction. Created by experts, inTime is an organic compilation of original compositions, based on a blend of world music with diverse percussion, string, and wind instrumentation, which accents the power of rhythm and sound frequencies. InTime provides an adaptive process of personalized listening training and specific movement activities using body, drum, and voice so your clients keep the beat, and flow with the rhythms of daily life.

## inTime: An Overview

### The brain is musical;

neuroscience has proven through functional brain imaging that music engages more brain areas than anything else, and rhythm is the most important, fundamental aspect of music. **Your brain health and brain-body connection depend on rhythm.**

Engaging with the rhythm-based music of inTime will help stimulate **rhythm awareness, focus, timing precision** and **adaptive responses to stress**, all of which supply your brain with the highest quality of stimulation it needs for optimal function.

**Learn more about inTime and how it can help you or someone you care about Keep the Beat!** ▶

## Cancellation Policy

### **Certification Course Start-up and 2 Day Intensive**

Cancellations must be made in writing. Pre-paid registration, refundable less \$100.00. No refunds will be made less than two weeks prior to a selected training course. Links To Learning reserves the right to cancel any training course with due cause and a full refund will be made on any paid registration, or the opportunity to complete training as web based option.

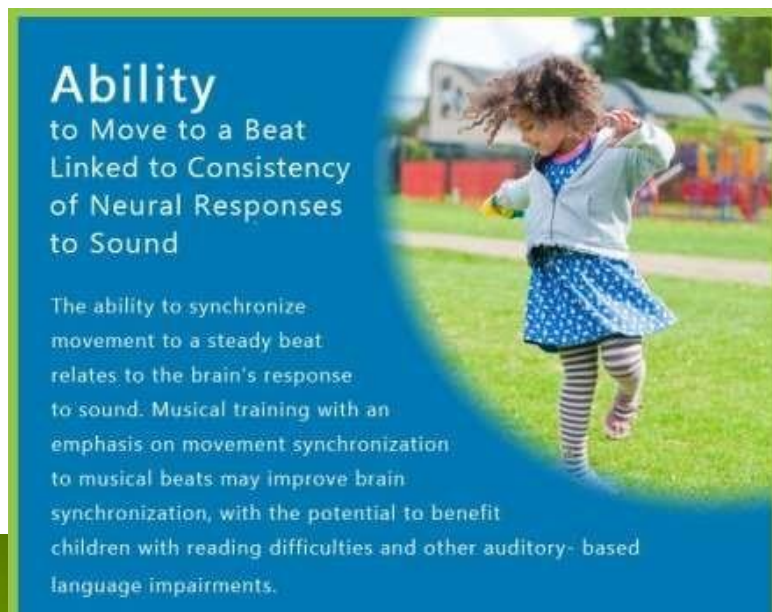

### **Transfer Policy**

Transfer requests will be considered if received in writing no later than four weeks prior to the registered event. If the transfer request is granted, the registrant must pay the \$75 transfer fee plus the difference between the event costs, if any. In addition, the event transfer must occur within the same calendar year as the original registered event. Multiple transfers are not allowed.

### **Minimum Course Pre-requisites**

By registering for a training course, you agree and certify that you meet the pre-requisites of being a qualified professional with a minimum of a Bachelor's or Master's Degree in a health, therapeutic, education or music field. You understand that if you do not meet the minimum requirements that ABT has outlined, ABT has the right to revoke your certification and a refund will not apply.

**Ability**  
to Move to a Beat  
Linked to Consistency  
of Neural Responses  
to Sound

The ability to synchronize movement to a steady beat relates to the brain's response to sound. Musical training with an emphasis on movement synchronization to musical beats may improve brain synchronization, with the potential to benefit children with reading difficulties and other auditory- based language impairments.
